Dave,  
I will already be onsite looking after the Wabuska Drain sampling. I can escort EPA if you would like. Will everyone have PPE?

Subject: Anaconda Copper Mine Site - Request for Access Wed March 2

Dear Jack, Dear Taurus,  
Sorry for the late notice but EPA would like to request access to the site this Wednesday March 2. Specifically as part of his visit to the area to discuss the NPL issue with local stakeholders our Regional Administrator Jared Blumenfeld would like to see the A, B, and C Ponds related to the former Arimetco heaps.  
Because of his tight schedule he probably only has between 8 am and 845 am for a quick look at the ponds.  
Please let me know if this is acceptable and whether anyone will be available to escort Mr. Blumenfeld to the ponds.  
In addition, Superfund Division Director Enrique Manzanilla and Section Chief Harold Ball will likely accompany Mr. Blumenfeld.  
Thanks for considering this request.  
Best Regards,  
Dave Seter  
Remedial Project Manager  
USEPA Region 9
